WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions
Altered vision

Eye or muscle twitching Involuntary movements

Loss of awareness Disorientation

To reduce the likelihood of a seizure when playing video games:

- 1. Sit or stand as far from the screen as possible.
- 2. Play video games on the smallest available television screen.
- 3. Do not play if you are tired or need sleep.
- 4. Play in a well-lit room.
- 5. Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the
 correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Game

Worlds

There are 16 levels within 4 worlds. The worlds are separated with a total of 4 Boss-levels, and three fun and fast-moving transition levels between each world, where Kao can ride a snowboard, Jet Ski, or fly an aircraft. Additionally, when collecting key parts, Kao can be teleported to bonus levels.

Altogether, Kao has 27 diverse locations to explore.

The Map

After finishing every level, the map appears and the next level on the path starts to blink, letting the player enter it. The levels, which were successfully finished, are available all the time in case the player wants to replay them either to collect left power-ups or just for fun.

Panel

During each stage a panel of useful information will be displayed along the top and bottom of the screen. During the game, the player can see 6 items on the screen, as explained below:

Bonuses and Power ups are items that can be found and collected by Kao.

They help the player in completing the game:

Small Energy

Small red heart gives energy.

Small Coins

Collect 120 Small Coins and get one extra life.

Big Energy

Big red heart gives twice more energy than small ones.

Big Coins

One big coin equals 10 Small Coins.

Checkpoint

After collecting this item, one can put checkpoint at any place in the game.

When Kao dies, he reappears in the place where the last checkpoint was dropped. If no checkpoint

Extra Life

Kao's head gives one extra life.

Power Glove

A red glove that can be thrown by Kao to hit an enemy.

Freeze

All level enemies stop moving for a while so Kao can easily punch them or avoid them.

Question Mark

Any power up above or loss of energy (amount depending on difficulty mode).

Speed Up

It allows Kao to run faster and to be invincible.

Keys and Lock

Once all 4 key parts are collected, Kao needs to find the lock, in order to find a big surprise...

You can have the Chess World Champion Garry Kasparov as your personal trainer, playing against you. You got to check it out!
